Case Study

A Leading Precision Components Manufacturer

- Finance
- Inventory
- Quality
- Sales
- Planning
- Delivery
- Purchase
- Production
- Analytics

Previously Used Solution

They were using a Customized Software that was specially developed according to their requirements.

Proposed Solution

Challenges Encountered

Increase in the Manual Work because of lack of modules integration.

Hence, the user needs to maintain Excel Sheets which causes duplication of the work too.

Quality Control was also one of challenge as they must take care of those parameters as per customer requirements.

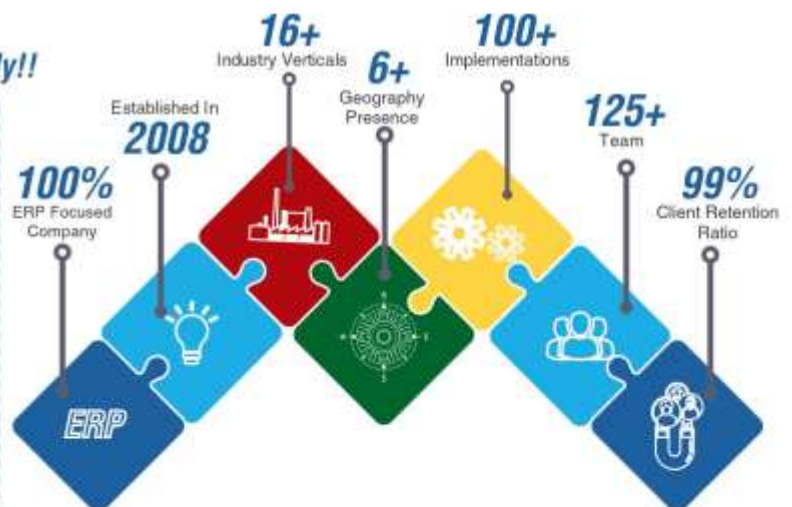

With Previous system they were facing issue for Manage documents as we have implemented Document attachment Add-ons.

In case of sub-contracting, client had specific requirement that material receipt was not getting applied to specific Job Issue.

About MindQuad:

Digital Transformation - Efficiently and Effectively!!

MindQuad Solutions Pvt. Ltd. is a solution centric company driven by sheer ethics and integrity using cutting edge technologies to deliver the cost effective, predictive, consistent, reliable and flexible solutions. We aim to be a one stop solution company leveraging best of SAP & Microsoft Dynamics technologies and delivering the best fit solution to our clients. We strive to become a partner for our clients rather than just another IT vendor and be an integral part of their success story in business growth.

Solution Addressed

- They have multi-layer BoM tracking with their current system which helps them track sub assemblies products and its usage.
- Seamless connectivity with Mobile Application as well as Web Browser.
- Power BI Reports are provided for addressing the Analytical capabilities of the Solution.
- For sub-contracting material receipt a solution has been provided such that all the job issue entries are now available for selection to select from.

“Optimize your Inventory and Production activities with an Integrated Business Solution”

Analytical Aid

- ✓ Purchase Statement developed as per their requirement
- ✓ E-Way bill Report generated from SAP Business One.
- ✓ TDS Report (when vendor & invoice while TDS payment entry posted at that time data will be updated in report)
- ✓ Stock Statement Report developed as per their requirement.
- ✓ GSTR1 Report customize as per their requirement

Client Speaks

We have got more analytical capabilities from the new version of SAP Business One which we further integrated with Power BI to get extensive reporting related to Procurement, Sales, Production and Finance.

- Managing Director

Project Highlights

- ✓ Their database contains more than 6,000 items.
- ✓ Requisition module implemented.
- ✓ Production QC and Inward QC enablement.
- ✓ E-Way bill integrated with SAP Business One.
- ✓ Critical subcontracting Process Integration.

Recommendation:

Client accepts advance payment against sales orders. We recommended to use advance payment functionality where Sales Order reference was associated with Bank receipt which can be auto applied to Sales Invoice.
